Instructions for creating an on-line application

Step-1: Go to the box '**User Login'** on the right hand side corner of the page
Step-2: Select '**Create account'** to create an on-line application account.
Step-3: Enter account information and password.
Step-4: Click on '**Save'** to confirm and create an on-line application account.
Step-5: Wait for a while, once your account is created, you will receive a message 'your account has been successfully created' on your computer screen.

Once you have created an on-line application account, you can login to complete and submit the application form.

Please ensure that you DO NOT create multiple accounts with different email addresses, as doing so will invalidate your application.

Note: Please read the 'Instructions for TIIP on-line application procedure' before starting your application form.
